

# Arnav Ahuja

☎(+91)9667005300 — ✉arnavahuja21@gmail.com — [linkedin.com/in/arnav-ahuja/](https://www.linkedin.com/in/arnav-ahuja/) — [arnavahuja.github.io/](https://arnavahuja.github.io/)

## Education

- **Birla Institute Of Technology and Science, Pilani, Rajasthan, India** 2018-2023  
Bachelor of Technology Computer Science  
Master of Science in Mathematics (Dual Degree)  
**Overall CGPA: 8.29/10**
- **St Xavier's School, Jaipur, Rajasthan, India** 2017-2018  
All India Senior School Certificate Examination (Class XII)  
**Percentage: 95.6%**

## Work Experience

**Barclays** Aug'23 - Present  
*Position: Graduate Developer — Team: Consumer Credit Risk*

- Provisioned and performed **ETL processes on credit risk-based datasets** for multiple teams within Barclays
- Spearheaded the deployment of a unified messaging service on AWS **integrating five team services**
- Built pipeline to deploy **cost-optimized AWS infrastructure** for the team's microservice based application

**Amazon** June-Dec'22  
*Position: Applied Scientist — Team: Selection Monitoring*

- Developed **reinforcement learning based baseline models** with **30% accuracy** for identifying user actions
- Constructed **Webpage Segmentation** based approach with **84.2% accuracy** for finding user actions on web-pages
- Utilized a **graph based approach for exhaustive product selection** on competitor e-commerce websites

**Western Australia Department of Health** Jan-May'22  
*Position: Research Intern*

- Analyzed **~19000 attributes for 373 suburbs** in the Australian continent for improving community health
- Implemented **heirarchical clutering and PCA based clustering** for attribute correlation
- Obtained a specific suburb from the data for in-depth analysis and evaluation of policy effectiveness

## Publications

- **Use of spatio-temporal features for earthquake forecasting of imbalanced data.**  
(IEEE) *International Conference on Intelligent Innovations in Engineering and Technology (ICIET)*. [LINK](#)  
**Arnav Ahuja, Aaditya Sharma, Sumanta Pasari**
- **Disease Identification in Tomato Leaf using pre-trained ResNet and Deformable Inception.**  
(Springer) *5th International Conference on Computational Intelligence in Data Science*. [LINK](#)  
**Arnav Ahuja, Jennifer Ranjani, Aditya Tulsyan**
- **Forecasting Earthquakes Using Neural Network Models.**  
(Springer Nature) *Disaster Management in Complex Himalayan Terrains - Natural Hazard Management, Methodologies and Policy Implications*. [LINK](#)  
**Arnav Ahuja, Sumanta Pasari**

## Academic Projects

**Classical ML: Detecting Diabetic Retinopathy using ML** Jan-May'22

- Analysed **single nucleotide polymorphism** data for identifying the susceptibility to **diabetic retinopathy**.
- Implemented **Lasso Regression and Random Forest algorithm for feature selection** in SNPs.
- Used **machine learning algorithms** like kNN, SVM, Gradient Boosted DT for predicting the susceptibility.

**Computer Vision: Crop Disease Identification** Jan-Dec'20

- Developed a **new Inception Resnet deep learning architecture** to identify diseases in the leaf of tomato plant
- Achieved an **accuracy of 98.16%** which is higher than the traditional resnet model (97.5%)
- Created a new dataset of real images using **data augmentation** which significantly increased the accuracy

## Deep Learning: Earthquake Forecasting

Aug-Dec'20

- Analyzed **time series data of earthquakes** in five different regions to extract the seismicity information
- Implemented a neural network **model which forecasts earthquakes** using seismicity indicators in the regions
- Achieved an **accuracy of 90.4%** for forecasting the probability of an upcoming earthquake in the Himalayas

## Computer Vision: Facial Recognition Based Attendance System

May-July'20

- Developed a **facial-recognition based attendance system** to help curb the spread of COVID-19
- Used **openCV library (Haar Cascade Algorithm)** for facial recognition

## Mentorship Experience

---

### Teaching Assistant

Prof. Surekha Bhanot, BITS Pilani

BITS F312 : Neural Networks & Fuzzy Logic

Aug-Dec'22

- Guided a class of approximately 100 students and was responsible for their assignments
- Supervised multiple groups of 3-4 students in their projects

## Technical Skills

---

### Programming Languages

- C, C++, Java, Python, MATLAB, SQL, Shell Script

### Data Science Libraries

- Boto3, PyTorch, TensorFlow, Keras, Pandas, Numpy, openCV

### Machine Learning

- CNNs, RNNs, GRUs, LSTMs, Transformers, Reinforcement Learning

### Platforms/Tools

- AWS (all services), Google Colab, Jupyter Notebook, MATLAB
